

# Historical Crystal

*Our ancestors were not ashamed to live surrounded with beauty. This is the very essence of our historical crystal — a joyous surrender to magnificence.*

*The open-cage construction of seventeenth-century French chandeliers, the heavy cast arms of Baroque fashion, the spear and olive-shaped crystals dear to the Victorians — we have played with all these design ideas and more in our historical crystal collection.*

*The details, the workmanship, are authentic; the interpretation, deliciously new.*

*Sometimes we fuse motifs from several periods into one design to create a retro mood.*

*Obviously, our historical crystal will be at home in traditional settings. But daring designers will juxtapose old and new just for the thrill of it.*

**La Scala (Custom)**

Crystal: Heritage Handcut™
